

Alex Rivera - Senior Machine Learning Engineer

Email: alex.rivera@example.com | Phone: (555) 234-5678 | San Francisco, CA | GitHub: github.com/arivera-ml

Professional Summary

Dedicated Machine Learning Engineer with 4 years of experience designing, fine-tuning, and serving predictive AI models and NLP pipelines in production. Experienced in PyTorch, Scikit-learn, FastAPI microservices, and Docker containers.

Technical Skills

Programming & Frameworks: Python, PyTorch, Scikit-learn, SQL, FastAPI, Transformers

ML & NLP: Machine Learning, Deep Learning, Natural Language Processing, MLOps, Feature Engineering, Model Evaluation

Cloud & DevOps: Docker, AWS, S3, Git, CI/CD

Work Experience

Senior ML Engineer | Apex AI Systems (2022 - Present)

- Built and fine-tuned BERT and PyTorch text classification pipelines, improving intent recognition accuracy by 14% across 2M daily user requests.
- Designed high-performance REST APIs in FastAPI wrapped in Docker containers, sustaining 850 requests per second at sub-30ms latency.
- Established automated MLOps evaluation workflows with MLflow and Scikit-learn for continuous model validation and drift detection.

Machine Learning Developer | DataVenture Analytics (2020 - 2022)

- Developed predictive machine learning models using Scikit-learn and XGBoost for customer conversion forecasting with 88% ROC-AUC.
- Optimized SQL queries and feature extraction scripts across PostgreSQL databases reducing preprocessing time by 35%.

Education

Bachelor of Science in Computer Science | UC Berkeley (2016 - 2020)
