

Jordan Taylor - Junior Python Developer

Email: jordan.taylor@example.com | Phone: (555) 345-6789 | Chicago, IL | LinkedIn: linkedin.com/in/jtaylor-dev

Professional Summary

Enthusiastic Python developer with 1.5 years of experience developing backend REST endpoints and database integrations. Solid grasp of Python, Flask, FastAPI, SQLite, and Git.

Technical Skills

Languages: Python, JavaScript, SQL

Frameworks & Tools: FastAPI, Flask, SQLite, PostgreSQL, Git, Postman

Core Concepts: REST API, Object-Oriented Programming, Unit Testing

Work Experience

Junior Backend Developer | CloudSpark Labs (2023 - Present)

- Built 12 REST API endpoints using FastAPI and PostgreSQL for an internal employee management application.
- Wrote automated unit tests with Pytest covering 80% of business logic code paths.
- Integrated Redis caching to reduce database read pressure on frequent user session checks.

Software Engineering Intern | NextGen Tech (2022 - 2023)

- Assisted senior developers in bug fixing and database indexing on MySQL instances.
- Created automated Python web scraping scripts for competitive price tracking.

Education

Bachelor of Science in Information Technology | University of Illinois (2019 - 2023)
