

Marcus Thorne - DevOps & Cloud Infrastructure Engineer

Email: marcus.thorne@example.com | Phone: (555) 567-8901 | Seattle, WA

Professional Summary

DevOps Engineer with 4 years of experience specializing in cloud infrastructure automation, container orchestration, and CI/CD pipelines. Expert in Kubernetes, Docker, Terraform, AWS, and Linux environments.

Technical Skills

Cloud & Infrastructure: AWS, Docker, Kubernetes, Terraform, Linux, CI/CD, Nginx

Programming & Scripting: Python, Bash, Go

Monitoring & Tools: Git, GitHub Actions, Prometheus, Postman

Work Experience

DevOps Engineer | StratoCloud Technologies (2022 - Present)

- Managed 14 production Kubernetes clusters hosting 80+ microservices on AWS (EKS, EC2, RDS).
- Automated infrastructure provisioning with Terraform modules, reducing new environment spin-up time from 3 days to 25 minutes.
- Designed automated GitHub Actions CI/CD pipelines deploying containerized Python services.

Systems Administrator | Horizon Telecom (2020 - 2022)

- Administered Linux server fleets, configured Nginx reverse proxies, and managed automated backup schedules.

Education

Bachelor of Technology in Computer Engineering | Washington State University (2016 - 2020)
